Education

Bath Spa University Ras Al Khaimah, UAE

BSc (Hons) Creative Computing • Year 2 average: 73% (First-class standard) *Sep. 2023 – Jun. 2027 (expected)*

- **Final year:** Machine Learning, Research Project, Cyber Security, Physical Computing, Creative Incubator
- **Year 2:** Creative Industry Challenge (81%), CodeLab II, Indie Game Design, Smartphone Apps, Web Development 2, Alternative & Emerging Technologies

Projects

Echo Knight: Lair of Drogo | *Unity, C#, Pixel Art* | Video Sep. 2025 – Jan. 2026

- Designed and built a solo 2D action platformer for Indie Game Design, graded **74%**
- Implemented dash, multi-jump and melee combat, tuning hitboxes so attacks feel responsive
- Built an NPC-led tutorial level, stomp-based enemies and a dragon boss encounter

Pokédex Desktop App | *Python, Tkinter, REST API* | Demo Sep. 2025 – Jan. 2026

- Wrote a **3,185-line** data-driven app wrapping the PokéAPI, graded **74%** in CodeLab II
- Separated a data model, an API manager and a UI controller to keep the codebase maintainable
- Added search, type and species lookups, evolution chains and favourites saved to file

Deep Graphite Suite & Campus Assistant | *Python, Data Viz* | Video Feb. 2026 – May 2026

- Built a COVID-19 dashboard with KPI panels, WHO-region filtering, log-scale correlation and chart export
- Built a chat assistant answering admissions, IT and campus questions for Bath Spa RAK, graded **75%**

Atelier Aura | *HTML, CSS, JavaScript, Google Auth* | Video Sep. 2025 – Jan. 2026

- Developed a responsive multi-device fragrance store with Google sign-in and personalised pages

Arithmetic Quiz App | *Python, Tkinter, UI Design* | Video Sep. 2025 – Jan. 2026

- Built a three-level quiz game with a single-window flow, custom card UI and audio feedback, graded **77%**

Industry Challenge: Proof of Concept | *Pitching, Concept Design* Feb. 2026 – May 2026

- Answered a creative-industry brief with a proof-of-concept pitch (80%) and challenge portfolio (**81%**)

Invoice Website for UAE Businesses | *Team Project, Web Platform* Final year

- Co-developing an invoicing platform for UAE businesses; wrote and delivered the project introduction
